

# HCP Pre A

## *30 Days Prior to Course*

### **Your Role**

- Determine course specifics
  - Target audience
  - Number of students
  - Special needs or equipment
- Reserve equipment
- Schedule room
- Schedule additional instructors if needed

### **Reference**

Instructor Manual

# HCP Pre B

## *2 Weeks Prior to Course*

### **Your Role**

- Send student precourse letters with student materials
- Confirm additional instructors

### **Reference**

Instructor Manual

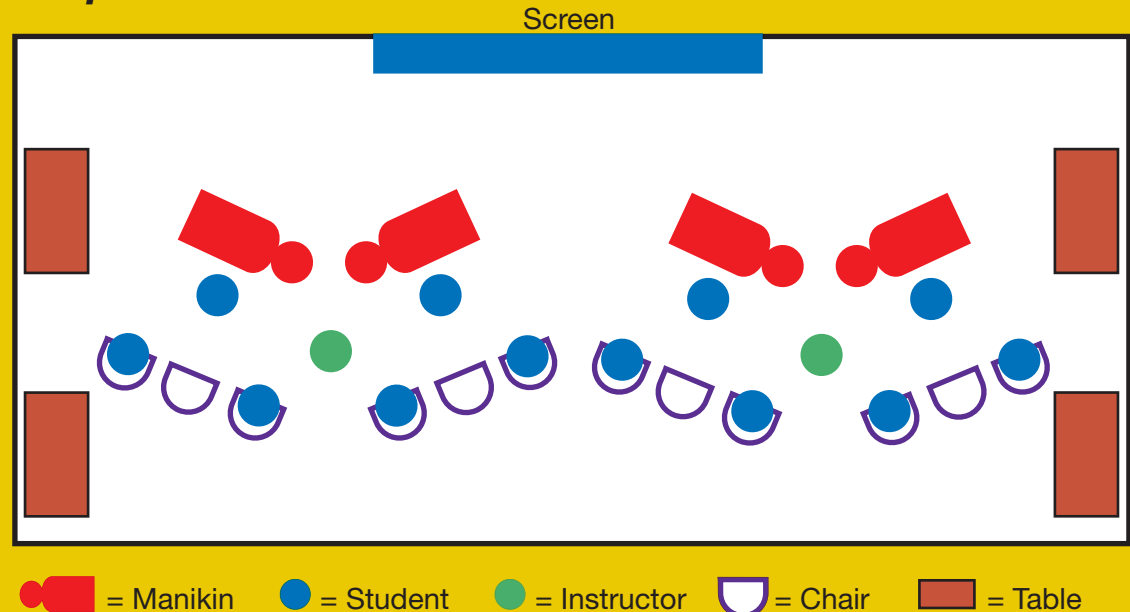

# HCP Pre C

## Day Prior to Course

### Your Role

- Set up room
- Coordinate plan with additional instructors if needed
- Use precourse checklist to ensure that all equipment is available and working
- Ensure that all course paperwork is in order

### Sample Floor Plan

### Reference

Instructor Manual

# HCP Pre D

## *Day of Course*

### **Your Role**

- Pass out supplies
- Greet students as they arrive to help make them feel at ease
- Fill out course roster

### **Reference**

Instructor Manual

# HCP 1

## Course Introduction

0:00  
↓  
5:00

### Resources

- Course roster

### Student Role

- Introduce self
- Listen to instructor

### Student Objectives

- Get acquainted with instructors and other students

### Your Role

- Introduce instructors
- Invite students to introduce themselves in small groups
- Explain housekeeping issues, including paperwork and facilities
- Explain that the course is somewhat strenuous
- Ask that anyone with a medical concern, such as knee or back problems, talk with one of the instructors
- Explain how students will learn by video-based, PWW, and practice sessions
- Tell the students:  
“We are scheduled to end at \_\_\_\_.”

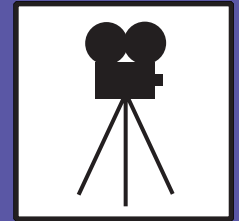

### Reference

none

# HCP 2

## *CPR Basics for Adults*

0:00  
↓  
3:00

### **Resources**

- AV equipment

### **Student Role**

- Watch video
- Follow along in manual

### **Student Objectives**

- See full sequence of CPR
- Get motivated to learn CPR

### **Your Role**

- Show video
- Tell students to follow along in student manual

### **Reference**

HCP Student Manual, Part 2, *CPR Basics for Adults*

# HCP 3

## *Chest Compressions*

0:00  
↓  
6:00

**PWW**

### **Resources**

- AV equipment
- Adult manikin
- Stopwatch

### **Student Role**

- Practice while watching video

### **Student Objectives**

- Perform chest compressions
- Show proper hand position
- Perform 3 sets of 30 compressions to correct depth without stopping
- “Push Hard-Push Fast”
- Allow full chest recoil

### **Your Role**

- Assign students to groups
- Ask first student in each group to get into position
- Show video
- Do NOT re-demonstrate skills
- Students watch video demonstration and then practice with video; rotate among all students
- Carefully observe each student
- Give positive and corrective feedback
- Emphasize core concepts of push hard, push fast; full chest recoil

### **Reference**

HCP Student Manual, *Chest Compressions*

# HCP 4

## *Cleaning the Manikin*

0:00  
↓  
4:00

### Resources

- Adult or child manikin
- Alcohol swabs
- Gauze or tissue to remove lipstick/gum
- Optional: face shields

### Student Role

- Listen to instructor

### Student Objectives

- Show how to clean the manikin between each student if necessary

### Your Role

- Pause video
- Explain how your training center cleans manikins between each student
- Explain how to use face shields
- Explain how to clean masks
- Ask students to take off lipstick and remove gum
- If using face shields, remind students to keep them for other lessons

### Reference

Instructor Manual

# HCP 5

## *Airway and Breathing*

0:00  
↓  
7:00

**PWW**

### **Resources**

- AV equipment
- Adult manikin
- Optional: face shields

### **Student Role**

- Practice while watching video

### **Student Objectives**

- Perform head tilt–chin lift
- Give 5 sets of 2 mouth-to-mouth breaths

### **Your Role**

- Show video
- Do NOT re-demonstrate skills
- Students watch video demonstration and then practice with video; rotate among all students
- Carefully observe each student
- Give corrective feedback
- Emphasize visible chest rise
- Pause between student practices so students can clean manikins if necessary

### **Reference**

HCP Student Manual, Part 2, *Opening the Airway and Giving Breaths*

# HCP 6

## *Breaths With Masks*

0:00  
↓  
7:00

**PWW**

### **Resources**

- AV equipment
- Adult manikin
- Masks
- One-way valves

### **Student Role**

- Practice while watching video

### **Student Objectives**

- Give 5 sets of 2 breaths with mask

### **Your Role**

- Video continues
- Do NOT re-demonstrate skills
- Students watch video demonstration and then practice with video; rotate among all students
- Carefully observe each student
- Give corrective feedback
- Emphasize visible chest rise

### **Reference**

HCP Student Manual, Part 2, *Opening the Airway and Giving Breaths*

# HCP 7

## Compressions and Breaths

0:00  
↓  
5:00

**PWW**

### Resources

- AV equipment
- Adult manikin
- Masks
- One-way valves
- Stopwatch

### Student Role

- Practice while watching video

### Student Objectives

- Learn how to put compressions and breaths together with 30:2 ratio
- Perform 3 cycles of 30:2

### Your Role

- Video continues
- Do NOT re-demonstrate skills
- Students practice with video; rotate among all students
- Carefully observe each student
- Give corrective feedback
- Emphasize core concepts of push hard, push fast; full chest recoil; when giving breaths watch for chest rise; minimize interruptions; try to keep interruptions to less than 10 seconds

### Reference

HCP Student Manual, Part 2, *Opening the Airway and Giving Breaths*

# HCP 8

## Assessment

0:00  
↓  
5:00

**PWW**

### Resources

- AV equipment
- Adult manikin
- Mask
- One-way valves

### Student Role

- Practice while watching video

### Student Objectives

- Assess responsiveness
- Activate emergency response, get AED
- Check breathing
- Give 2 breaths
- Check carotid pulse

### Your Role

- Video continues
- Do NOT re-demonstrate skills
- Students watch video demonstration and then practice with video; rotate among all students
- Carefully observe each student
- Give positive and corrective feedback

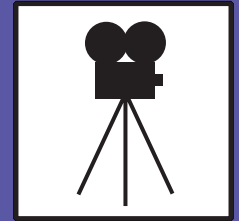

### Reference

## *1-Rescuer CPR Demo*

0:00  
↓  
2:00

### **Resources**

- AV equipment

### **Student Role**

- Watch video

### **Student Objectives**

- Understand full sequence of 1-rescuer CPR with mask

### **Your Role**

- Video continues
- Do NOT re-demonstrate skills

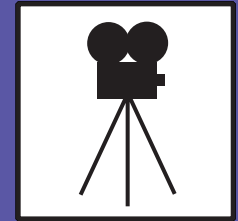

### **Reference**

HCP Student Manual, Part 2, *1-Rescuer Adult CPR Sequence*

# HCP 10A

## **Adult 1-Rescuer CPR Practice Session** (Video intro then practice)

0:00  
↓  
11:00

### **Resources**

- AV equipment
- Adult manikin
- Masks
- One-way valves
- Stopwatch

### **Student Role**

- Watch video
- Demonstrate full sequence of CPR

### **Student Objectives**

- Demonstrate full sequence of 1-rescuer CPR for adult
- Use practice sheets

### **Your Role**

- Video continues
- Pause the video
- Tell students to turn to practice sheet in student manual
- Have students rotate so each has a chance to practice the situation on the video
- Give corrective feedback

### **Reference**

HCP Student Manual, Part 2, *1-Rescuer Adult CPR Sequence*

# HCP 10B

## *Adult 1-Rescuer CPR PRACTICE SESSION DETAILS*

### **Play Video**

- S1 watches situation on video and responds as rescuer
- S1 practices entire sequence of 1-rescuer CPR for an adult

Rotate through other students responding to the situation on the video with entire sequence of 1-rescuer CPR for an adult

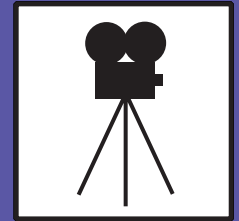

Carefully observe each student

Give positive and corrective feedback

# HCP 11

## Child CPR Sequence

0:00  
↓  
3:00

### Resources

- AV equipment

### Student Role

- Watch video

### Student Objectives

- Watch differences in CPR for child
- Recognize similarities and differences between adult and child CPR

### Your Role

- Video continues

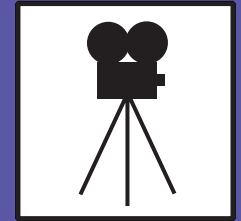

### Reference

HCP Student Manual, Part 3, *CPR for Children*

# HCP 12A

## Child 1-Rescuer CPR Practice Session (Video intro then practice)

0:00  
↓  
11:00

### Resources

- AV equipment
- Adult or child manikin
- Masks
- One-way valves
- Stopwatch

### Student Role

- Watch video
- Demonstrate full sequence of CPR

### Student Objectives

- Demonstrate full sequence of 1-rescuer CPR for child
- Use practice sheets

### Your Role

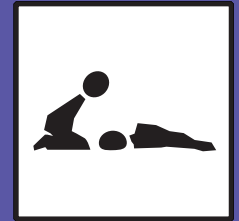

- Show video
- Pause video
- Tell students to turn to practice sheet in student manual
- Give corrective feedback

### Reference

# HCP 12B

## *Child 1-Rescuer CPR PRACTICE SESSION DETAILS*

### **Play Video**

- S1 watches situation on video and responds as rescuer
- S1 practices entire sequence of 1-rescuer CPR for a child

Rotate through other students responding to the situation on the video with entire sequence of 1-rescuer CPR for a child

Carefully observe each student

Give positive and corrective feedback

# HCP 13

## Adult Rescue Breathing With Bag Mask

0:00  
↓  
7:00

**PWW**

### Resources

- AV equipment
- Adult manikin
- Bag masks

### Student Role

- Practice while watching video

### Student Objectives

- Provide 1 minute of rescue breathing using bag mask, 1 breath every 5 to 6 seconds

### Your Role

- Show video
- Do NOT re-demonstrate skills
- Students watch video demonstration and then practice with video; rotate among all students
- Carefully observe each student
- Give corrective feedback
- Emphasize visible chest rise

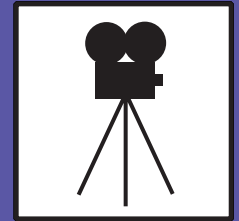

### Reference

# HCP 15

## *AED Introduction* *AED Use*

0:00

2:00

### **Resources**

- AV equipment

### **Student Role**

- Watch video

### **Student Objectives**

- Understand purpose of an AED

### **Your Role**

- Show video

### **Reference**

HCP Student Manual, Part 6, *Automated External Defibrillator*

# HCP 16

## Using the AED Trainer

0:00  
↓  
5:00

### Resources

- AV equipment
- AED trainer
- AED supplies

### Student Role

- Listen to instructor

### Student Objectives

- Know how to use trainer

### Your Role

- Explain how to use trainer
- Emphasize following AED prompts
- Tell the students that the AED trainer will not give a real shock

### Reference

HCP Student Manual, Part 6, *Automated External Defibrillator* (for actual AED actions), and instruction booklet for specific AED trainer

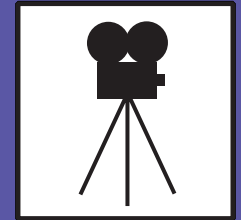

# HCP 17

## 2-Rescuer CPR With AED Demo

0:00

5:00

### Resources

- AV equipment

### Student Role

- Watch video

### Student Objectives

- Understand how to do 2-rescuer CPR with an AED

### Your Role

- Show video

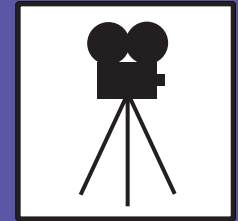

### Reference

HCP Student Manual, Part 6, *2-Rescuer CPR Sequence With an AED*

# HCP 18A

## 2-Rescuer CPR With AED Practice and Skills Test Session (Video intro then practice)

0:00  
↓  
15:00

### Resources

- AV equipment
- Adult manikin
- AED trainer
- AED supplies
- Bag mask
- Adult pads
- Child pads or child pad picture page
- Stopwatch

### Student Role

- Watch video
- Demonstrate full sequence of CPR with AED

### Student Objectives

- Show how to use an AED with all steps of 2-rescuer CPR

### Your Role

- Video continues
  - Pause video
  - Tell students to turn to practice sheet in student manual
  - Rotate among all students, each practicing being one of 2 rescuers performing all steps of CPR and using the AED
  - Tell each student to instruct someone to activate emergency response system and get the AED
  - Carefully observe each student using AED within 90 seconds of AED arrival
  - Skills test: evaluate student's competency in 2-rescuer CPR using bag mask
  - Check off each skill as student demonstrates competency
  - Give corrective feedback
  - Emphasize following AED prompts
- Note AED trainer statement

### Reference

HCP Student Manual, Part 6, *2-Rescuer CPR Sequence With an AED*

# HCP 18B

## 2-Rescuer CPR With AED Scenario SHOCKABLE RHYTHM AED SCRIPT

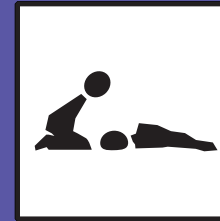

**USE THIS LESSON ONLY UNTIL THE AED TRAINER MATCHES THE NEW SCIENCE:  
After the student attaches pads, clears victim, and AED analyzes rhythm**

Step	Description	Instructor Actions	Student Actions
A	AED says to <b>deliver shock</b>	<ul style="list-style-type: none"><li>• Observe student</li></ul>	Clear victim
B	AED delivers shock	<ul style="list-style-type: none"><li>• Observe student</li></ul>	Press shock button
C	AED has delivered shock	<ul style="list-style-type: none"><li>• Power off AED (do not allow students to do this)</li><li>• Verbalize AED prompt: <i>“Begin CPR starting with chest compressions”</i></li></ul>	Wait for AED instructions/prompts
D	AED is turned off	<ul style="list-style-type: none"><li>• Observe student</li></ul>	Begin CPR starting with compressions

# HCP 18C

## *2-Rescuer CPR With AED Practice and Skills Test Session*

### **LESSON 18C ROTATIONS**

#### 3:1 Student-to-Manikin Ratio

Video presents CPR situation, then

1st Rotation: S2 starts CPR, S1 brings and uses AED, both do CPR; S1 is tested, S3 observes

2nd Rotation: S3 starts CPR, S2 brings and uses AED, both do CPR; S2 is tested, S1 observes

3rd Rotation: S1 starts CPR, S3 brings and uses AED, both do CPR; S3 is tested, S2 observes

#### 2:1 Student-to-Manikin Ratio

Video presents CPR situation, then

1st Rotation: S2 starts CPR, S1 brings and uses AED, both do CPR; S1 is tested

2nd Rotation: S1 starts CPR, S2 brings and uses AED, both do CPR; S2 is tested

#### 1:1 Student-to-Manikin Ratio

Video presents CPR situation, then

Rotation: Two students combine as per 2:1

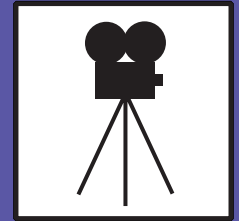

# HCP 19

## *AED Special Situations and Safety*

0:00

3:00

### **Resources**

- AV equipment

### **Student Role**

- Watch video

### **Student Objectives**

- Understand special situations when using an AED

### **Your Role**

- Show video

# HCP 21

## **Advanced Airway and 2-Rescuer CPR Practice Session (Video intro then practice)**

0:00

8:00

### **Resources**

- AV equipment
- Adult manikin
- Bag masks
- Stopwatch

### **Student Role**

- Practice 2-rescuer CPR with an advanced airway in place

### **Student Objectives**

- First rescuer performs 1 minute of rescue breathing using bag mask, 1 breath every 6 to 8 seconds
- Second rescuer continues chest compressions

### **Your Role**

- Pause video
- Do NOT re-demonstrate skills
- 2 students practice 2-rescuer CPR, switching roles at least once; rotate among all students twice so each student gets to practice the skills twice
- Carefully observe each student
- Give corrective feedback
- Emphasize visible chest rise

## 2-Rescuer Infant CPR Practice Session DETAILS

### LESSON 28B ROTATIONS

#### 3:1 Student-to-Manikin Ratio

Video presents CPR situation, then

1st Rotation: S1 assesses and starts breathing; S2 compresses; S3 watches

2nd Rotation: S2 assesses and starts breathing; S3 compresses; S1 watches

3rd Rotation: S3 assesses and starts breathing; S1 compresses; S2 watches

#### 2:1 Student-to-Manikin Ratio

Video presents CPR situation, then

1st Rotation: S1 Assesses and starts breathing; S2 compresses

2nd Rotation: S2 Assesses and starts breathing; S1 compresses

#### 1:1 Student-to-Manikin Ratio

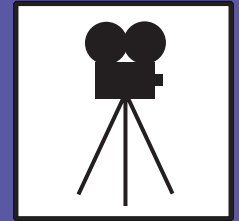

Video presents CPR situation, then

Rotation: Two students combine as per 2:1

# HCP 29A

## 1- and 2-Rescuer Infant CPR Skills Test (Video intro then practice)

0:00  
↓  
15:00

### Resources

- AV equipment
- Infant manikin
- Mask
- One-way valves
- Bag mask
- Stopwatch

### Student Role

- Demonstrate full sequence of 1- and 2-rescuer CPR

### Student Objectives

- Show how to perform 1- and 2-rescuer CPR
- Conduct test on each skill

### Your Role

- Video continues
- Pause video
- Rotate among all students, each practicing being one of 2 rescuers performing all steps of CPR
- Tell each student to tell someone to activate the emergency response system
- SKILLS TEST: evaluate students' competency in 1- and 2-rescuer CPR using mask and bag mask
- Check off each skill as student demonstrates competency
- Refer student for remediation if test is unsuccessful

### Reference

HCP Student Manual, Part 7, *1- and 2-Rescuer Infant CPR Sequence*, and Instructor Manual, *Critical Skills Descriptions*

# HCP 29B

## 1- and 2-Rescuer Infant CPR Skills Test DETAILS

### LESSON 29B ROTATIONS

- S is tested in 1-rescuer CPR: S starts CPR and does 1 cycle (using pocket mask for breathing), then
- S is tested in 2-rescuer CPR: Another S comes in as 2nd rescuer, takes over breathing using bag mask

First student continues 2-rescuer CPR as compressor using 2 thumb–encircling hands technique for 2 cycles, then switches, takes over bag-mask breathing for 2 cycles

#### 3:1 Student-to-Manikin Ratio

Video presents CPR situation, then

1st Rotation: S1 starts CPR, S2 is 2nd rescuer; S1 is tested

2nd Rotation: S2 starts CPR, S3 is 2nd rescuer; S2 is tested

3rd Rotation: S3 starts CPR, S1 is 2nd rescuer; S3 is tested

#### 2:1 Student-to-Manikin Ratio

Video presents CPR situation, then

1st Rotation: S1 starts CPR, S2 is 2nd rescuer; S1 is tested

2nd Rotation: S2 starts CPR, S1 is 2nd rescuer; S2 is tested

#### 1:1 Student-to-Manikin Ratio

Video presents CPR situation, then

Rotation: Two students combine as per 2:1

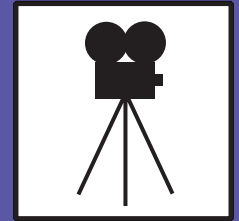

# HCP 30A

## **Adult/Child Choking** *(Responsive)* *(Video intro then practice)*

0:00

3:00

### **Resources**

- AV equipment

### **Student Role**

- Watch video

### **Student Objectives**

- Understand how to relieve choking in a victim aged 1 year and older

### **Your Role**

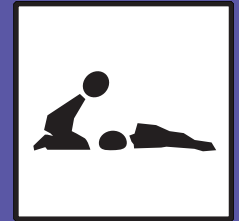

- Video continues

### **Reference**

HCP Student Manual, Part 8, *Relief of Choking in Victims 1 Year of Age and Older*

# HCP 30B

## **Adult/Child Choking** **(Responsive)** **(Video intro then practice)**

### **Resources**

- Adult or child manikin

### **Student Role**

- Practice with partner or manikin

### **Student Objectives**

- Show how to relieve choking in a victim aged 1 year and older

### **Your Role**

- Pause video
- All students rotate through practice

### **Reference**

HCP Student Manual, Part 8, *Relief of Choking in Victims 1 Year of Age and Older*

**HCP**  
**30C**

***Adult/Child Choking***  
***(Responsive)***  
***PRACTICE SESSION DETAILS***

Students practice correct hand placement for abdominal thrusts on live partner or manikin

Assessment question is “Are you choking?”

Carefully observe each student

Give corrective feedback

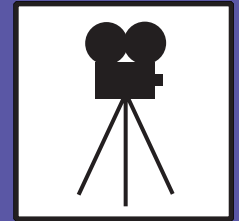

Do not allow students to actually do thrusts on each other

Watch for correct hand placement

# HCP 31

## Adult/Child Choking (Unresponsive)

0:00  
↓  
1:00

### Resources

- AV equipment

### Student Role

- Watch video

### Student Objectives

- Know to activate the emergency response system once a choking victim becomes unresponsive
- Know to start CPR if a choking adult/child becomes unresponsive

### Your Role

- Video continues
- This is only a video demonstration with no student practice

### Reference

HCP Student Manual, Part 8, *Relief of Choking in Victims 1 Year of Age and Older*

# HCP 32A

## Infant Choking (Responsive)

0:00

6:00

**PWW**

### Resources

- AV equipment
- Infant manikins

### Student Role

- Practice while watching video

### Student Objectives

- Identify the signs of choking in the responsive infant
- Show how to relieve choking in the responsive infant

### Your Role

- Show video
- First student practices with first sequence
- Students practice relieving choking using back slaps and chest thrusts
- All students rotate through practice

### Reference

HCP Student Manual, Part 8, *Relief of Choking in Infants*

**HCP**  
**32B**

***Infant Choking***  
***(Responsive)***  
***PRACTICE SESSION DETAILS***

**PWW**

Students practice correct technique for back slaps and chest thrusts on infant manikin

Carefully observe each student

Give corrective feedback

Make sure students use correct technique

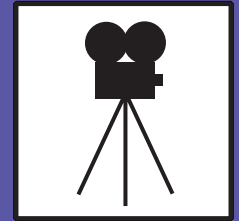

# HCP 33

## Infant Choking (Unresponsive)

0:00

1:00

### Resources

- AV equipment

### Student Role

- Watch video

### Student Objectives

- Know to activate the emergency response system once a choking infant becomes unresponsive
- Know to start CPR if a choking infant becomes unresponsive

### Your Role

- Video continues

### Reference

HCP Student Manual, Part 8, *Relief of Choking in Infants*

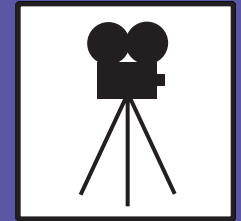

# HCP 34

## Special Considerations

0:00

7:00

### Resources

- AV equipment

### Student Role

- Watch video

### Student Objectives

- Know special considerations:
  - Scene safety
  - Personal protection
  - Cricoid pressure
  - Jaw thrust
  - Agonal gasps
  - Recovery position
  - Chain of Survival
  - Recognition of 4 common life-threatening emergencies

### Your Role

- Video continues

Note: May need to explain cyanosis

### Reference

HCP Student Manual, Parts 9 and 10, *Special Considerations*

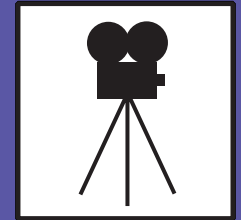

# HCP 35

## *Course Summary and Closure*

0:00

1:00

### **Resources**

- AV equipment

### **Student Role**

- Watch video
- Ask questions

### **Student Objectives**

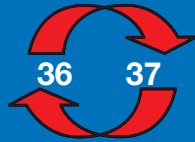

### **Your Role**

- Video continues
- Stop video
- Answer questions

### **Reference**

HCP Student Manual

# HCP 36A

## Written Test

0:00

25:00

### Resources

- Test
- Pencils
- Answer sheets
- Annotated answer key
- Course evaluation forms (print from instructor CD or copy from instructor manual)

### Student Role

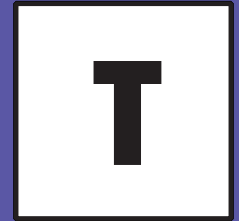

- Take test
- Complete course evaluation form

### Student Objectives

- Show mastery of cognitive information

### Your Role

- Divide students into 2 groups; half do written test (Lesson 36) and half do skills test (Lesson 37); then groups switch
- Distribute answer sheets
- Pass out test
- Tell students to answer questions
- Ask students not to write on tests
- Collect tests
- Grade tests
- Hand annotated answer key to students who missed questions
- Pass out course evaluation forms
- Tell students to complete evaluation forms
- Collect completed evaluation forms and tests

The written test is a closed-book test

Students may not cooperate or talk to each other during the test

When student completes test, grade the test

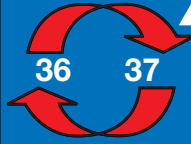

Give students annotated answer key and have them go over the items they got incorrect

Answer any questions

Students who scored less than 84% need immediate remediation:

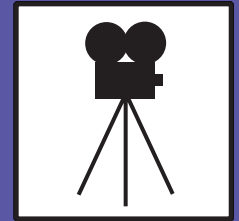

- Make sure student understands errors and correct answers
- Remediate by giving second test or by having student verbally go over each item they got incorrect, showing understanding of incorrect items

# HCP 37A

## Adult/Child 1-Rescuer CPR Skills Test (Video intro then practice)

0:00  
↓  
25:00

### Resources
